Why

Choose Direct Debit?

It's Convenient

Paying by direct debit completely takes the effort out of paying your gas bills. You will still receive your bill every two months as always, but as the payment is taken from your bank account automatically - you won't have to do a thing!

It's Reassuring

Knowing payments are made and dates are not missed provides reassurance and eliminates the worry of trying to remember to pay bills.

It's Up To You

You can choose which Direct Debit method suits you best. Variable Direct Debit will collect the full amount every two months, ten days after your bill is sent.

Fixed Direct Debit collects a fixed amount on the date of your choice each month.

Cleaner **Greener** **Easier**

It's Cheaper

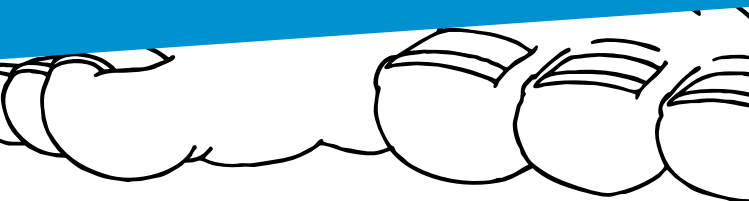

Apart from saving on stamps and envelopes, customers paying by direct debit automatically receive the prompt payment discount.

It's Predictable

Fixed Direct Debit allows you to budget more effectively by enabling you to spread the cost load throughout the year. The same amount will be taken out every month so you know what to expect when you receive your bill.

It's Easy

All you have to do is complete the enclosed form and return it to us using the envelope provided - we will take care of the rest.

Sign up to pay your gas bill by Direct Debit and you WILL be entered into our quarterly prize draw EVERY quarter!

Terms and conditions apply, log on to www.manxgas.com

win
£250

Our Direct Debit Department can work out an average monthly usage based on your previous bills.

If you have any other questions regarding setting up a Direct Debit for your Manx Gas bills please do not hesitate to contact us on
